The Committee of National Defense was organized at Salonica by Greek military officers and well-known civilians in the last days of August. The committee established what it termed the "Provisional Government of Macedonia" and addressed an appeal to the Greek people and army, urging them to drive the Bulgarians from Greek soil. On September 3 a Salonica dispatch stated that the Elleventh Army Division, the police and the Liberal or Venizelist party in Macedonia had joined the revolutionary movement and that a general mobilization had been decreed in the province. No definite news as to what has happened since has been permitted to pass the censor.

LONDON, Sept. 23.—An Athens dispatch says a "reconstruction" of the present Cabinet and the ejection of the pro-German members of it are planned "in order to gain the recognition of the Entente." Those in close touch with the Greek situation predict that King Constantine will shortly have no alternative left except the appointment of Veniseloc, the only man with whom the Allied dipjomats are willing to deal.

The Greek fleet has been ordered to surround the Greek warship Georgios-Averoff because 200 out of her crew of 550 were said to be preparing to join the revolutionaries at Saionica. The revolt in Macedonia is reported to be spreading.

NEW YORK TO SEEK LEGISLATIVE SESSION TO BLOCK WALK-OUT

City's Assemblymen and Senators Called to Meeting Monday to Ask Special Session of Whitman

MAY FORCE ARBITRATION

Fifty-four Unions Called . to Strike to Help Carmen

NEW YORK, Sept. 23.-New York valted apprehensively today for the next turn in the labor war which threatens for next Wednesday a general "suspension of work" to make the largest city of the na tion a city of dead industries.

Developments of the last twenty-four hours have injected much bitterness into the situation developing from the strike of surface, subway and elevated carmen. A call was issued by Assemblyman Vin-

cent Gilroy to the sixty-three assemblymen and twenty-three senators of New York city to meet Monday night to formulate a request to the Governor for a special session of the State Legislature to force an end of the strike.

UNIONS MUST VOTE Many unions will have to vote authorization for the strike, leaders admitted today, as not all the leaders had power to order a walkout. This balloting will begin today.

The general strike order as interpreted by union leaders is merely notice to the employers that union men will not ride to employers that union men will not ride to work on cars run by non-union men and guarded by the police; but, they assert its effect will be a complete tie-up of industry in the greater city through refusal to work of nearly 800,000 union members.

President Shonts, of the Interborough, storm center in the labor fight, announced the policy of the company to deal with individual employes and not with unions or union leaders had not been altered.

SHONTS WILL NOT YIELD "We are fully prepared for any emergency," he said. "Our policy will not be changed. The only question at issue is whether the individual is to be protected in his constitutional right to work under conditions satisfactory to himself individually."

Shonts was under fire today for recommendations which he made in a circular addressed to the District Attorney and to individual members of the Grand Jury, urging that the Grand Jury, which is understood to have returned five or six indictments for violence in the strike, indict labor leaders for conspiracy. District Attorney Swann announced that Shonts's action invalidated any action the present Grand Jury might take and that he would have to call another if the probe into the strike was to be continued. ually.

READY TO PROSECUTE "If any law has been violated," Assistant District Attorney Dooling said, "the district attorney will proceed against the offender just as vigorously as he would against the humblest stone thrower who has offended during the strike."

While the general walkout is four days off and many believe the investigation of the transit strike to be opened Tuesday by the State Board of Conciliation and by the State Board of Conciliation and Arbitration will prevent it. New York is facing more serious transpertation difficulties today in the threatened spread of the present strike. Police were dispatched to Brooklyn when a tip was received that union organizers wars organizing a walkout in the Brooklyn Rapid Transit lines. Carmen of Richmond borough meanwhile threatened a walkout before night if demands they had presented were not granted. The police who were rushed to Brooklyn terminals found no evidences of an attempt to tie up the lines there.

Police Commissioner Woods has issued an order to captains to enroll ten men in each precinct who are willing to do strike

ample size, the police say the party included four persons.

After frightening many persons off the street on Haddon avenue because of their terrific speed, the joy riders came to a sudden stop at Haddon avenue and Mount Vernon atreet, when the car coilided with a telegraph pole. The car bounced backward to the street, turned on two wheelst changed its mind and sped on again.

Those in the car made several stops. After each stop the car sot more wobbly and undecided. It was in this state of mind when it crashed into a trolley car of the Haddonfield line. Aside from knocking most of the passengers off their seats and causing a general panic, the auto did little damage. But it suffered so badly from shock that it went to pieces and lay about the road in sections.

The joyriders gathered up their belongings and deserted the car on the spot where it was found today by the police.

The Haddon garage is conducted by H. G. Bull.
